Accurate as of: 18 March 2024

What is this product?

Type

This is an investment fund established as an Irish Collective Asset-Management Vehicle (ICAV).

Objectives

Investment objective The Fund's primary objective is to produce returns in excess of the MSCI TR Emerging Market Index.

Investment policies The Fund seeks to achieve the investment objective by pursuing a diversified long-only equities and equity derivatives investment strategy with an Emerging Markets focus.

The Fund seeks to achieve its objective through investing (under normal market conditions) at least 90% of the NAV in equity or equity-related securities of (i) large, mid and smaller capitalisation companies located in global Emerging Market countries; (ii) companies and other entities located outside the global Emerging Market countries carrying out business predominantly in the global Emerging Market countries (e.g. companies whose income is predominantly derived from any or all of such countries); and (iii) companies whose primary business is to invest in companies or other investment vehicles located in global Emerging Market countries or whose business is predominantly in global Emerging Market countries.

The Fund may take long positions and such positions are expected to be within a net range of 90-100% long of the NAV.

Long positions may be held through a combination of the direct purchase of equity and equity-related securities and/or FDIs.

The Fund may hold up to 100% of the NAV in cash and cash equivalent assets in circumstances where, by way of example, it is necessary to support FDI exposure, or where market conditions may require a defensive investment strategy.

The Fund will invest more than 20%, anticipated to be more than 90%, of the NAV in Emerging Markets and Frontier Emerging Markets. FDIs may be employed for efficient portfolio management, investment, managing risk or hedging purposes.

For full investment objective and policy details, please refer to the "Investment Objective" and "Investment Policies" sections of the Fund's supplement.

Benchmark The Fund is actively managed and uses the MSCI TR Emerging Market Net USD Index for performance fee calculation purpose only. Any deviation of the Fund from that benchmark may be material.

Redemption and Dealing Investors can buy or sell shares on any day on which banks in Dublin and London are open for business.

Distribution Policy Any income less expenses realised will not be distributed to investors but will be accumulated in the net asset value per share.

Launch date The Fund was launched on 25/06/2021. The share class was launched on 04/04/2023.

Fund Currency The base currency of the Fund is USD. The share class is in GBP.

Switching between Funds Shares in the Fund may be switched for shares of another sub-fund of the ICAV or another class in the Fund, subject to certain conditions and meeting the requirements for investment in such other classes or sub-funds. See the section entitled "Conversion of Shares" in the ICAV's prospectus for further information.

Asset Segregation The Fund is a sub-fund of the ICAV, an umbrella Irish Collective Asset-management Vehicle with segregated liability between sub-funds. This means that the assets and liabilities of each sub-fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the ICAV.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIP manufacturer, Sephira Investment Advisors (UK) Limited (the "Investment Manager"), is not entitled to terminate the product unilaterally.

Practical information

Depository European Depository Bank SA, Dublin Branch.

Further information Further information on the Fund (including the Fund supplement as well as the current prospectus and the most recent financial statements which are prepared for the ICAV as a whole), as well as information on other share classes of the Fund and other sub-funds of the ICAV are available at <https://www.sephira-em.com/> and/or the registered office of the ICAV or from the Administrator or the Investment Manager in English free of charge. The current share price is available at <https://www.sephira-em.com/>.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 January 2023 and 31 January 2024.

Moderate: this type of scenario occurred for an investment between 31 January 2015 and 31 January 2020.

Favourable: this type of scenario occurred for an investment between 29 January 2016 and 29 January 2021.

Recommended holding period		5 years	
Example Investment		10,000 GBP	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	3,075 GBP -69.3%	2,664 GBP -23.2%
Unfavourable	What you might get back after costs Average return each year	7,993 GBP -20.1%	9,480 GBP -1.1%
Moderate	What you might get back after costs Average return each year	10,075 GBP 0.7%	13,216 GBP 5.7%
Favourable	What you might get back after costs Average return each year	13,885 GBP 38.8%	19,411 GBP 14.2%

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 GBP is invested.

Example Investment 10,000 GBP	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	378 GBP	959 GBP
Annual cost impact*	3.8%	1.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.2% before costs and 5.7% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge an entry fee.	0 GBP
Exit costs	3.00% of your investment before it is paid out to you.	300 GBP
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	0.50% of the value of your investment per year. This is an estimate based on actual costs over the last year.	50 GBP
Transaction costs	0.28% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	28 GBP
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	There is no performance fee for this product.	0 GBP

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Investors can buy or sell shares on any day on which banks in Dublin and London are open for business.

How can I complain?

You can send your complaint to the Management Company under the following postal address: 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to complianceeurope@waystone.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

Cost, performance and risk The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules.

Performance scenarios You can find previous performance scenarios updated on a monthly basis at <https://www.sephira-em.com/>.
